HOME THEATER

The home theater has become a part of everyday home life. It's where many hours are spent as family and friends come together for entertainment and relaxation. BDI Furniture merges innovative engineering and original design to seamlessly integrate today's technology into the home. From the family room to the living room to the bedroom, there's a BDI solution for any setting.

While beautiful, BDI furniture is more than meets the eye. Our home theater furniture is the most thoroughly engineered furniture available today, designed to anticipate the needs of the most demanding home theater systems. Features such as adjustable shelves, cable management, speaker/media storage, and hidden wheels provide simple setup, ease of use and lasting enjoyment.

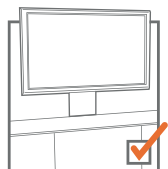

Home theater cabinets ship almost completely assembled, requiring only minimal hardware installation by the user or installer. Open stands require light assembly. Packaging is environmentally conscious and thoroughly designed to ensure that everything arrives as expected.

With innovative features and timeless designs, BDI furniture is an integral component to any home theater system.

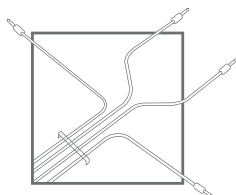

BDI HOME THEATER FURNITURE IS ENGINEERED WITH UNIQUE AND INNOVATIVE FEATURES INSIDE AND OUT, SO THERE IS ALWAYS MORE THAN MEETS THE EYE. THIS GUIDE WILL OUTLINE THOSE FEATURES THAT PUT BDI HOME THEATER FURNITURE IN A CLASS OF ITS OWN.

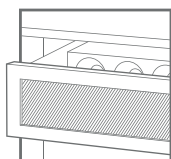

ADJUSTABLE SHELVES Because components come in many shapes and sizes, BDI's home theater furniture features shelves that can be adjusted to accommodate a wide range of systems. Most shelves rest on unique steel shelf pins which are rubber-padded to minimize vibration of components; high-quality threaded inserts allow you to readjust shelf positioning as needed. In general, BDI home theater cabinets are adjustable in 1.25-inch (32 mm) increments, while shelves in open TV stands can be set at one of several preset positions.

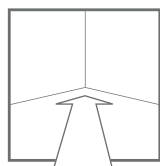

ARENA TV MOUNT COMPATIBLE BDI models that feature this icon are compatible with the Arena Flat Panel TV Mount, models 9970 and/or 9972. Model 9970 attaches directly to the rear of the cabinet, while model 9972 is a freestanding mount. Both models incorporate a multi-pivot swivel and provide a range of flat panel mounting heights.

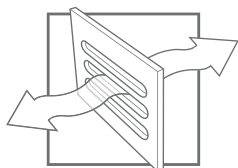

CABLE MANAGEMENT BDI home theater furniture is engineered to keep the usual tangle of cables and connections neatly under control and out of sight. Cabinets feature removable back panels for easy access to the rear of components. Integrated routing channels neatly conceal speaker and interconnect cables. Open TV stands feature a back panel with generous cable-routing openings. Whichever model is chosen, the user can gather and secure all cables neatly with the supplied Velcro® closures.

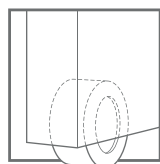

CONCEALED SPEAKER COMPARTMENT Units with this icon include a concealed compartment designed for use with a center channel speaker. The compartment may be a drawer or a shelf that includes a speaker-fabric panel front that allows the speaker's sound to pass through. Select models allow the drawer to be removed completely, revealing a finished shelf that accommodates larger speakers.

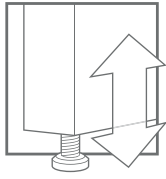

CORNER FRIENDLY The best place for a TV is sometimes the corner of the room, but common rectilinear TV stands may be too wide to effectively use the space. BDI designs featuring this icon are specifically engineered for positioning in a corner, maximizing the space with a minimal footprint.

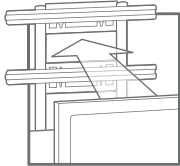

FLOW-THROUGH VENTILATION In order to perform at peak levels, components not only need to look cool, they have to stay cool. BDI cabinets facilitate airflow through generous ventilation slots integrated into the bottom panels, shelves and removable back panels. Cooler air is drawn in from the bottom of the cabinet, while hot air is naturally expelled out the back.

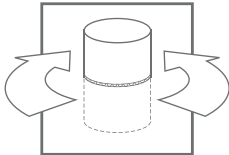

HIDDEN WHEELS BDI's unique concealed wheels are built into models that feature this icon. Even when fully loaded, cabinets can be moved away from the wall by one person for easy access to cables and connections.

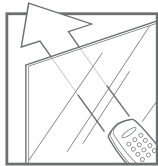

INTEGRATED LEVELERS If a cabinet is not level, doors and drawers may appear out of alignment. Floors can be uneven but that doesn't have to affect the appearance or performance of your BDI furniture. Models with this icon include easily adjusted levelers that compensate for minor variations in the floor. Cabinets with hidden wheels include integrated levelers that are readily accessible from inside or outside the cabinet, allowing it to be raised off of its wheels to secure it in place.

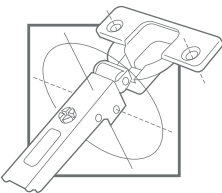

INTEGRATED MOUNTING BRACKET Furniture that features this icon includes a mounting bracket that allows the user to directly mount a broad range of flat panel TVs directly. Cables are kept out of sight, neatly routed through the sturdy steel support column. Refer to individual model specifications for recommended TV sizes.

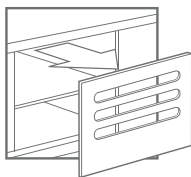

INTEGRATED SWIVEL Models with this icon feature an integrated swivel mechanism that allows for a better view from almost anywhere in the room. Swivel the unit for easy access to connections, or just to turn the screen away from unwanted light.

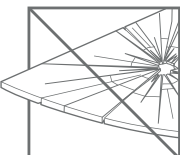

IR-FRIENDLY GLASS Grey tinted glass doors and windows keep components out of sight yet easily accessible by Infrared (IR) remote controls. This avoids the need for complicated and expensive remote repeaters.

PRECISION HARDWARE BDI's furniture features only the finest quality materials and finishes. Hardware connections are carefully engineered for ease of assembly and long lasting durability. With unique features (like adjustable soft-close hinges) BDI is in a class of its own.

REMOVABLE BACK PANEL BDI home theater cabinets are innovatively engineered with either removable or sliding back panels. BDI builds our cabinets in a unique way so that the backs can be removed effortlessly for easy access to components and connections. The back panel can be left off the cabinet without sacrificing structural rigidity, allowing larger components to extend from the back, if necessary.

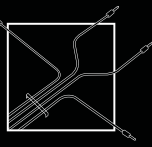

TEMPERED GLASS Most BDI furniture incorporates tempered (toughened) glass. Tempered glass is virtually shatterproof and four to five times stronger than standard glass. Tempered glass is strong enough to support the heaviest components.

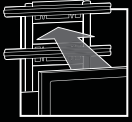

SHOWN WITH AVION SERIES II 8927

ARENA™ TV MOUNT BDI's ARENA Flat Panel TV Mount is an innovative alternative to wall mounting. Engineered in two models, one attaches directly to many of BDI's cabinets, while the other serves as a freestanding pedestal for use with other home theater cabinets.

PRECISION
HARDWARE

9970

- Model 9970 secures directly to the rear of select BDI cabinets.
- TV can be mounted at a range of heights.
- Universal mounting bracket attaches directly to most 40"–60" flat panel TVs.
- Integrated swivel allows user to pivot screen for a better view.
- The swivel brackets can be positioned on the front or the side of the column, which positions the TV closer or farther from the wall.

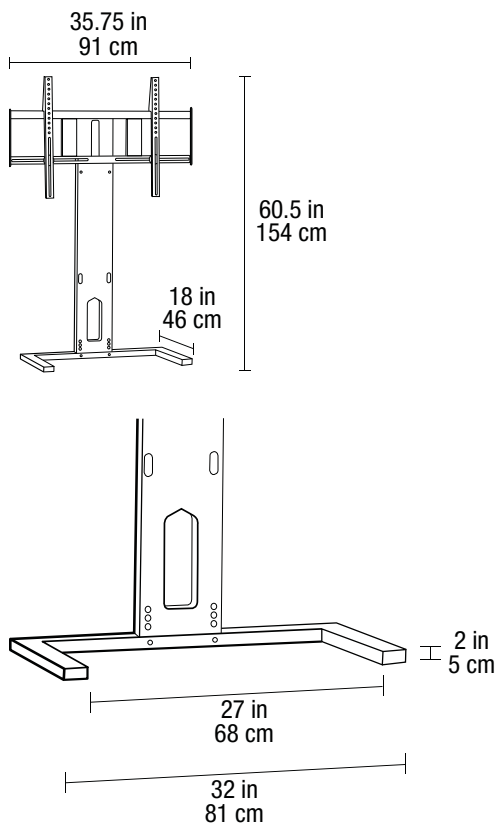

Recommended TV Size	40"–60" Flat Panel TV up to 175 lbs (80 kg)
Overall Dimensions (H x W x D)	58.75 x 35.75 x 5.5 in 149 x 91 x 14 cm
Weight	46 lbs ■ 21 kg

CABLES ARE DISCREETLY CONCEALED WITHIN ARENA'S STURDY STEEL COLUMN.

MODEL 9970 MOUNTS SECURELY TO THE REAR OF SELECT BDI CABINETS.

9972

- Freestanding pedestal that 'hides' discreetly behind and under select current and former BDI models.
- Universal mounting bracket attaches directly to most 40"–60" flat panel TVs. TV can be mounted at a range of heights.
- A cabinet must have at least 2" of height clearance under the base and there should be no obstructions between 27" and 32" to accommodate model 9972's two legs (see illustration below).
- Compatible with other manufacturers' cabinets.
- The swivel brackets can be positioned on the front or the side of the column, which positions the TV closer or farther from the wall.

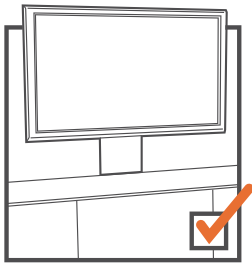

Recommended TV Size	40"–60" Flat Panel TV up to 175 lbs (80 kg)
Overall Dimensions (H x W x D)	60.5 x 35.75 x 18 in 154 x 91 x 46 cm
Weight	53 lbs ■ 24 kg

THE BASE OF MODEL 9972 IS DISCREETLY OUT OF SIGHT WHEN USED WITH COMPATIBLE CABINETS.

THE INTEGRATED MOUNTING BRACKET ALLOWS FOR DIRECT MOUNTING OF MOST 40"–60" FLAT PANEL TV'S.

ARENA TV MOUNT COMPATIBLE

This performance feature icon will be used to identify models that are compatible with the ARENA Flat Panel TV Mount model 9970 or 9972. ARENA 9970 is only compatible with certain BDI cabinets. For other models and manufacturers, ARENA 9972 is recommended. Refer to specific furniture models for compatibility. You can view BDI's web site (www.bdiusa.com) or the current home theater brochure for a complete ARENA compatibility list.

AVION® SERIES II Who says that you can't improve on a classic? For years, the AVION collection has delighted AV enthusiasts and design connoisseurs alike. BDI's award-winning AVION collection has evolved to the next generation of home theater excellence with AVION SERIES II. Signature features such as flow through ventilation, a concealed speaker/media compartment, and hidden wheels make AVION SERIES II an open and shut case for home theater superiority.

AVION® SERIES II

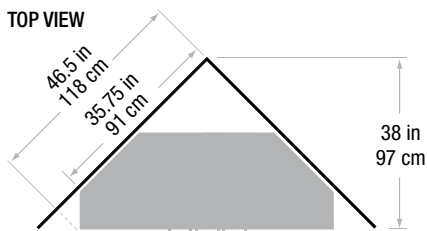

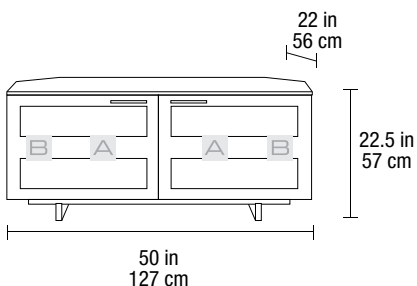

8925

- Looks great flat against the wall, but tapered rear panels also make this model perfect for corners.
- Side shelves can be used for media storage or may be removed to accommodate a gaming console.
- IR-friendly, grey tinted glass windows in doors of all models allow easy remote control access.

BDI STUDIO

ERAS™ While ERAS has a definite retro inspiration, this is not your mother's TV cabinet. ERAS updates a mid-century modern design with sleek grey tinted glass doors for a look that is anything but dated. Features include adjustable shelves and removable back panels for simple setup and maintenance. With elegant construction details, ERAS is available in BDI's beautifully modern Chocolate Stained Walnut finish.

REVO™ The home theater takes on a whole new shape with the curved lines of the REVO collection. Available in two models, REVO's elliptical footprint is versatile enough for practically any room in the house. Components are concealed behind IR-friendly curved glass doors and the open shelf can be used for a center channel speaker, media or additional components. REVO rotates on its swivel base, providing a great view from anywhere in the room.

REVO™

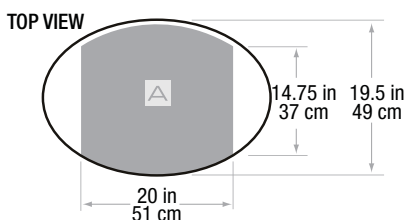

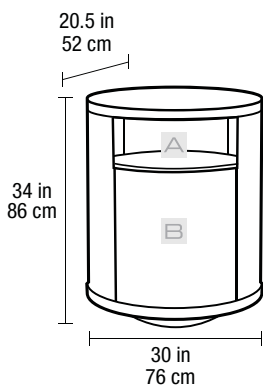

9980

- Unique elliptical shape and integrated swivel make this model great for corners, small spaces and bedrooms.
- Open top shelf can house a speaker, media or additional components.
- Curved glass door conceals a column of components on adjustable shelves.
- Perfect height for bedrooms.

VISTA® VISTA is a striking and impressive alternative to mounting a flat panel TV on the wall. The TV will always be at the perfect height, since the screen can be mounted at variable heights using the included mounting bracket. Cables are neatly hidden inside VISTA's sturdy steel column — there's even room to mount a power strip inside. Available with or without adjustable shelves.

VISTA®

DESIGN
LOUIS A. LARA

- Sturdy support column can conceal a power strip.
- TV mounts to included bracket at variable heights to ensure the best view.
- Model 9960 includes two adjustable shelves for components or a speaker.
